MUR 6751

Hi Ruth,

This is regarding complaints filed by Patricia Lavins against Corry Westbrook - MUR # 6751.

The summary is cut and pasted in this email and the full documents are attached. This document proves complaints one and three are not valid.

I did not commit voter fraud - I was a legal resident of Florida when I registered to vote in February 2013.

I never used a penny of campaign funds on airplane tickets. This can be cleared-up by simply looking at my FEC filings. Every penny I raised is accounted for and none was used on airplane tickets.

As such I would hope the FEC quickly clears me of these erroneous charges.

Patricia Lavins sends daily emails to hundreds of people stating I am under investigation from multiple agencies including the FEC and I will soon be arrested.

We know it is not true but lies repeated over and over and over to an ignorant public regarding campaign law can seem to become true. I beg you to review my case quickly so I can stop the stalking, fraud and constant harassment.

I am begging you to address my case as quickly as possible. Stalking and harassment are mentally abusive. I am a private citizen that has not committed anything I have been accused of by Pat Lavins. I have supplied proof of this - please help me stop this insane harassment.

Thank you -

Corry Westbrook
